

Nitrous Oxide: By No Means a Laughing Matter by Derek Davenport

1. What are some of the dangers associated with getting high on nitrous oxide?
2. What chemical reaction was used to first isolate nitrous oxide?
3. Davy was reckless, inhaling gases just to see what would happen. What happened when he inhaled nitrous oxide?
4. How is nitrous oxide used nowadays?
5. Why are companies adding sulfur dioxide to nitrous oxide sold to racers?
6. What is the reaction for the exothermic decomposition of nitrous oxide?
